*Human always needs the better way to lead the life. From the early days of civilization men has tried to minimize their pain created by nature on their body. This is the reason why medical science has been established. And as the complement of medical science the science of nursing has been formed.*

*In today's India the number of medical personals in respect of population is very low when it is compared to the developed and developing countries of the world. With an aim of providing such professional health personals the MOHANPUR*

**EDUCATIONAL TRUST** has established the nursing institute named **KADAMBINI DEVI OSG NURSING INSTITUTE** at the village Tanua , Mohanpur of Paschim Medinipur.

*Hope this institute will not only create some quality health professionals but also make great impact over the surrounding socio economy makinag the drastic change of women through education and job. Swami Vivekananda told about development of women for the proper upliftment of society. Our trust in respect of that not only tried for carpet change in women empowerment but also tried to recall the society about the great gourageous woman **KADAMBINI GANGULY (1ST GRADUATED WOMAN DOCTOR TO PRACTICE MEDICINE IN INDIA)** through the name of this institute.*

*Hope this process shall be a successful one.*

*Moni Mohan Halder (President)*

*From the beginning of journey the mankind has been tormented by disease pain and death. As the consequence of their brilliance they invented the ways to recover from the pain and illness in various methods. They may not shut down the door of the death, yet tried to justify the death in their own way.*

*The main weapon for this kind of relief is caring along with the application of methods invented by Charak Shusrut and so many others from the pre-historic Vedic age to today's modern medical science.*

*Though the process of medical sciences has been changed day by day yet the main sole behind the skeleton remained same. To help other with the delicate touch and scientific view is the motto of this field.*

*Modern nursing which is an inevitable part of medical science was more or less implemented in society by **FLORENCE NIGHTANGLE**. In this twenty first century in a downtown countryside of India the **KADAMBINI DEVI OSG NURSING INSTITUTE** has been established with two prolific intensions.... To provide nursing training for the rural dreamers and to initiate a better health and medical facility in upcoming India.*

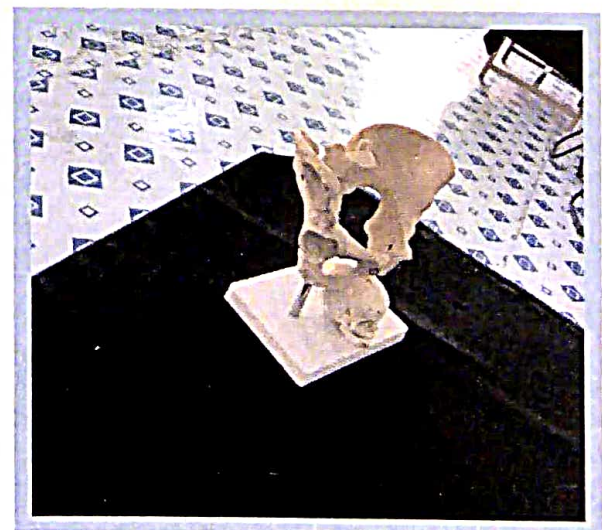

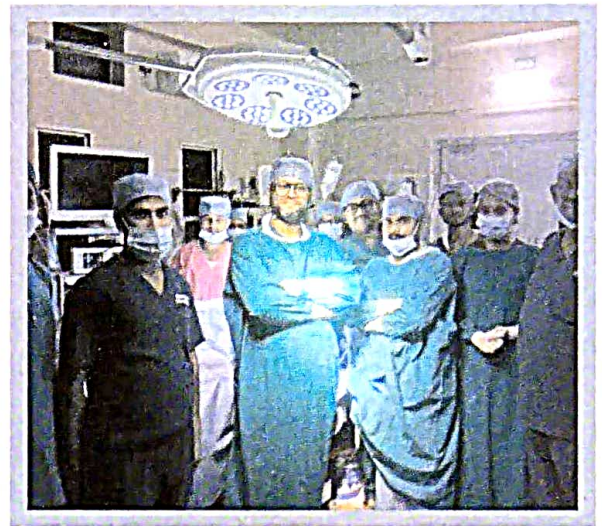

*This institution has been named behind the first lady doctor passed in India, **KADAMBINI DEVI**, keeping her struggle in mind. One must salute the women power once again and recall their fighting effort.*

*Hope the attempt of **MOHANPUR EDUCATIONAL TRUST** with **OSG Laparoscopy Hospital** shall create a positive impact once again in the society.*

*"Where mind is without fear and head is hold high Into that heaven of freedom, my father let my country awake" .....*

*Chinmay Maity (Secretary)*

*To nurse people in their odd moments is the greatest opportunity to create peace and satisfaction of own. From the history we can draw the pictures of loving and serving the distressed and helpless people again and again by the noble hearts like Florence Nightingale, Mother Teresa and so many others.*

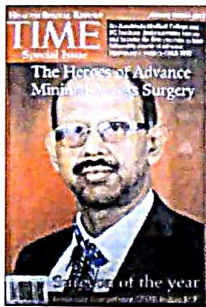

*In this regard the professional practice of nursing and medical science can play the right role. Only the great wish and compassion may not be enough to nurse the people in their bad times. Proper knowledge about physique and physiology is mandatory for this purpose.*

*Keeping the aim of creating a society enriched with proper professional and humanitarian nurse community the MOHANPUR EDUCATIONAL TRUST has established the nursing institute named KADAMBINI DEVI OSG NURSING INSTITUTE at the Tanua village of Mohanpur Block ,Paschim Medinipur. This nursing institute offers GNM and B.Sc nursing course with an annual intake of 60 each.*

*Hope the endeavor of MOHANPUR EDUCATIONAL TRUST will create some permanent impact in the society and it will be successful project.*

*Charaibeti ...*

*Parasuram Kumar (Patron-in-chief)*

*OSG Laparoscopic Hospital & Diagnostic Center Pvt. Ltd is a 100 bed facilitated NABH certified hospital located in Egra, Purba Medinipur, West Bengal. The hospital was inaugurated in the year 2013 by revered Atmananda Bramhachari.*

*In 2022 the hospital has made an collaboration with Mohanpur educational Trust for establishing a nursing institute named Kdambini Devi OSG Nursing Institute in Tanua, Mohanpur, Paschim Medinipur. The students of the institute shall not only avail the facilities of upgraded lab library services of institute but also can fetch the magnified scope of*

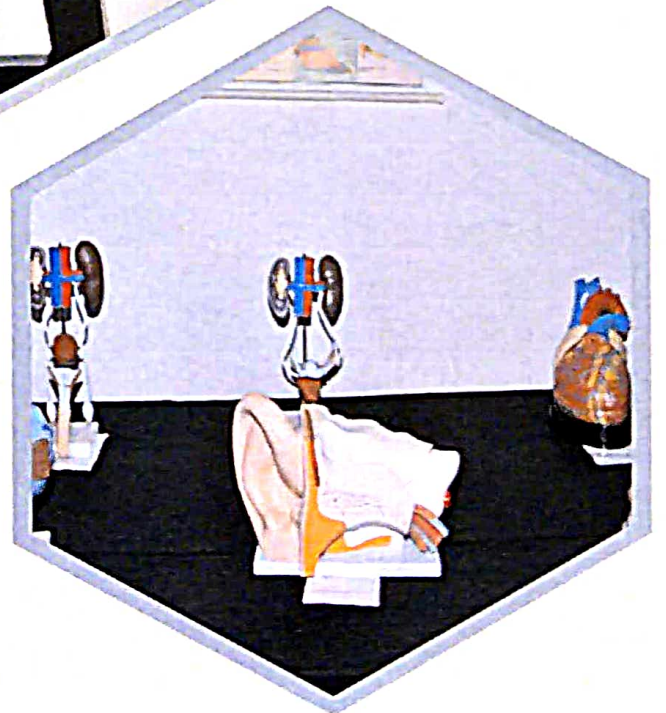

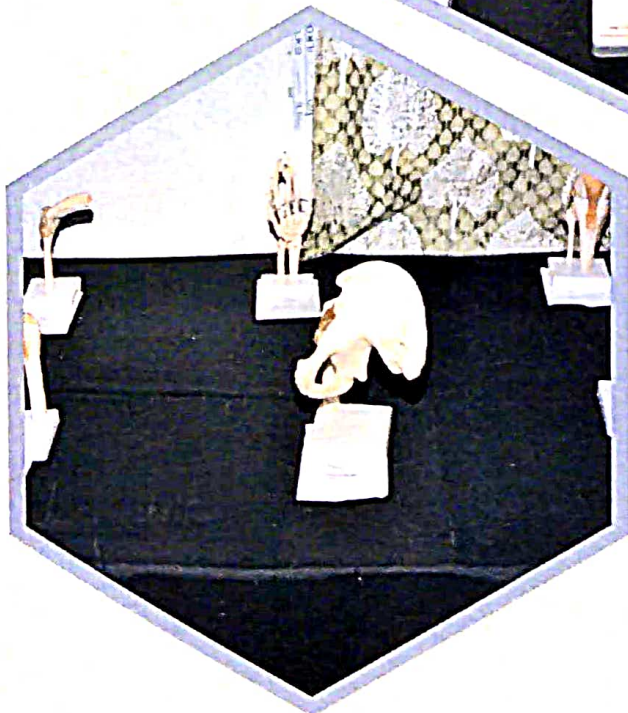

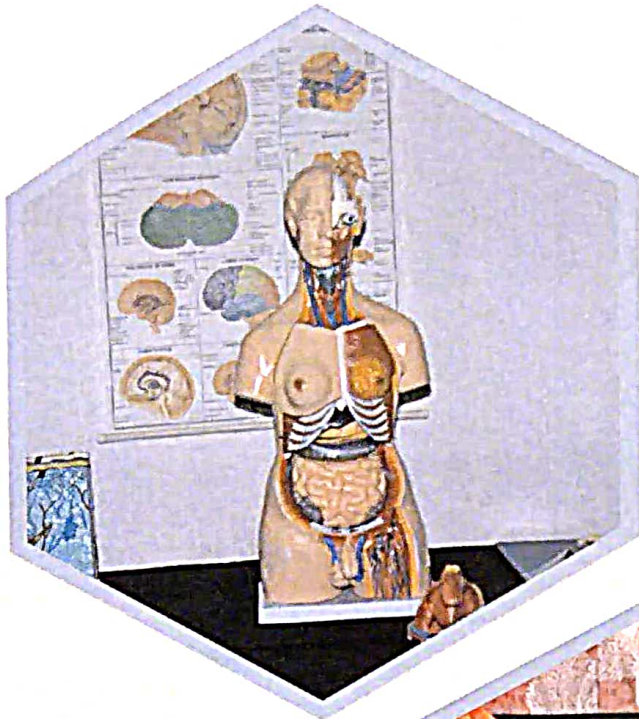

*practical practice and analysis in the hospital unit. They shall be accustomed with the various medical approaches like:*

- 1. 24x7 code blue emergency unit.*
- 2. Emergency response system for cardiac arrest and stroke.*
- 3. Minimally invasive laparoscopic surgery.*
- 4. Training by reputed surgeons.*
- 5. Comprehensive bed-side care management.*
- 6. Practice in the segments of gynecology, gastro-intestinal pathology, orthopedics, joint replacement surgery, cancer surgery, urology, dialysis unit, ENT & head neck surgery, medicine and radiology, invasive cardiology etc.*
- 7. ICU management. The trainee nurses shall be cordially learnt and taught the above mentioned medical methods and techniques of specified medical segment for their proper completion of training along with theory. This will create some good quality nurses who shall be part of better health atmosphere of future India.*

*Hope our joint venture with Mohanpur Educational Trust shall be fruitful one.*

*Dr B.A. GHATA, DIRECTOR
